Terms & Conditions:

The person who agrees below (hereinafter called the Applicant) hereby applies for and agrees to pre-pay purchase of energy from Pea River Electric Cooperative, Inc., a corporation, its successors and assigns (hereinafter called the Cooperative); and the applicant and Cooperative agree as follows:

- Any member of the Cooperative may elect to pre-pay their electricity through the Cooperative's pre-payment program. All members electing to participate in the pre-payment program will agree to pay the Cooperative's standard establish account fee of no more than \$30 per meter. If the member owes the Cooperative a bill, the member must have a zero balance or set up a debt management agreement on their account(s) before a member can participate in the pre-payment program.
- Security deposits will not be required for prepaid accounts – only the \$5.00 membership fee. Deposits for existing customers electing to go to prepaid will be applied toward their account balance. When a member, either by choice or by the Cooperative's choice, is no longer participating in the pre-payment program, the standard policy governing security deposits will be followed.
- An accurate cell phone number or e-mail address must be provided to the Cooperative at all times by the member participating in the pre-payment program in order for the Cooperative to provide updates to the member about account balances and other energy use information. Failure to do so may result in the inability of the Cooperative to communicate accurate information on the member's pre-payment balances and other energy use information to the participating member. Failure to provide the Cooperative with an accurate contact number or e-mail address may result in an untimely disconnection of electric service.
- Every effort will be made by the Cooperative to provide accurate account balances and other energy usage history of member's account through the Cooperative's website (www.peariver.com). A member may make a pre-payment for electricity on their account(s) at any time through the Cooperative's current payment options (phone, online, pay stations, in person at office). Prepayment may not be made at a pay station on the day that a balance goes below zero but can be made by phone, online or in person at the office. The Cooperative will prorate all yard light fees utilizing billing software.
- Applicant agrees that if a check is returned to the Cooperative unpaid for any reason, electrical service may be terminated by the Cooperative immediately without notice to applicant.
- If a member is disconnected from pre-pay due to non-payment on account and account remains out of service for 7 days, member's account will be final billed and member will be required to re-apply for service.
- IF ACCOUNT IS DISCONNECTED FOR NEGATIVE BALANCE YOU MUST PAY ENOUGH TO BRING ACCOUNT BALANCE TO A MINIMUM OF \$25.00**

The acceptance of this application by the Cooperative shall constitute an agreement between the Applicant and the Cooperative, its successors and assigns, and the contract for electric service shall continue in force from the date service is made available by the Cooperative to the applicant, and thereafter until cancelled under the terms of this agreement or in accordance with the by-laws, and rules, regulations or policies of the Cooperative.
